

## West Case Timeline

### EFFECTIVE TIMELINE CREATION, FASTER

#### THOMSON REUTERS WESTLAW

Thomson Reuters Westlaw™ comprises industry-leading online research, print products, software, tools, and services that help legal professionals perform their work faster and more efficiently, every day.

West Case Timeline™ streamlines the creation and editing of professional-quality timelines, saving you time and money and improving your case analysis and presentation in the process.

#### New 2.5 Features

- Add images to timeline events and footers
- Hyperlink source documents
- Save and reuse categories

#### Intuitive Data Entry

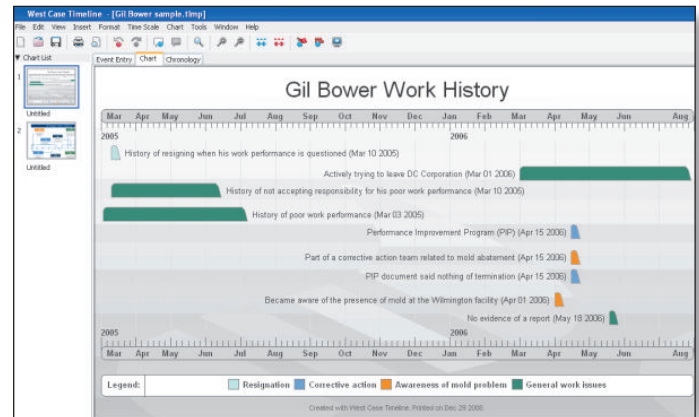

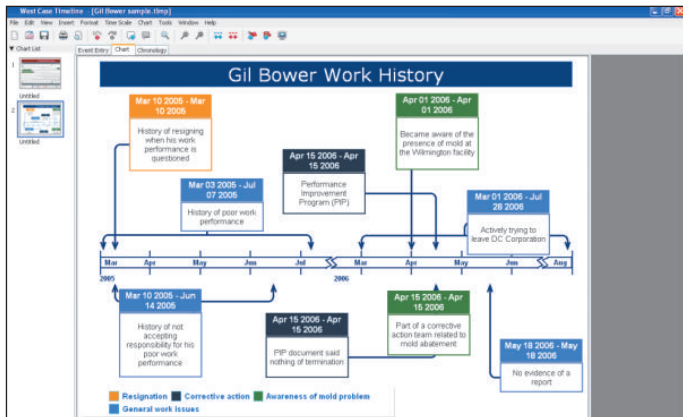

Gathering the data you wish to display in a timeline can be a cumbersome task. The spreadsheet-style data entry and integration with Westlaw® Case Notebook™ make compiling and organizing events in West Case Timeline a fast and intuitive process. A variety of built-in features and options streamline collaboration and make presenting your timelines easy and effective.

#### Customizable Views

Creating a visually appealing and understandable timeline is challenging, especially as the number of events you want to display changes. A newly discovered fact may throw off the formatting of your chart and require you to start from the beginning. West Case Timeline saves you from that aggravation and waste of time by automatically creating and formatting the timeline as your events change. Pre-set themes and intuitive customization options enable you to spend less time deciding on color palettes and font sizes and more time on the substance of your case. Convenient access to premier litigation resources

Feature	Benefit
Event entry tab allows you to insert, delete, or edit events as the case develops	Quickly plot out and modify the scope of your timeline
Include notes and hyperlink source information for each event	Easily refer back to supporting data
Send Key Facts directly from Westlaw Case Notebook	Save time and ensure accuracy by preventing the need to re-enter data

Feature	Benefit
One-click timeline creation	Time saved creating boxes, lines, and arrows
Choose different views: bar chart, horizontal flag chart, vertical flag chart, or chronology	Select the visual or text format that best suits your purpose
Apply preselected themes to your timeline	Professional and visually appealing timelines with one click – no design expertise necessary
Create your own themes with drag-and-drop formatting	Make creative adjustments to your timeline with ease
Auto adjust modifies the timeline as events change	Prevents the need to start from the beginning as new events are revealed
Re-size multiple objects simultaneously, modify timeline increments in a click, enter recurring events only once, save and reuse categories	Save time through efficient modification of your timeline events
Insert logos and images in your timeline	Easily customize your timelines to build a more persuasive presentation

Timelines may be displayed in flag or bar chart formats.

## Flexible Implementation, Collaboration, and Presentation Capabilities

Timelines are often used to present information to other individuals but file types, print formatting issues, and software requirements may make effective sharing of your timeline easier said than done. West Case Timeline enables you to overcome these obstacles by offering a wide variety of easy-to-use features that will enable you to effectively share your timeline with others.

Feature	Benefit
Connect notes, files and sources to specific events	Easily record, connect and share underlying data
Automate the display of events in your timeline using the presentation mode	Better control over the flow of your presentation
Publish timelines to PDF, HTML, or graphic files	Save and share timelines in your desired format
Flexible print preview options	Ensure that your timeline is formatted correctly before printing
Complimentary Viewer may be used by third parties	Clients, experts, and other third parties may easily review your timelines
Direct integration with PowerPoint®	Easily insert your timeline into a new or existing presentation
Integration with PeopleMap	Analyze and illustrate your public records research in a graphical timeline
Silent install with one license code	Install the software without disruptions
Citrix/Terminal Service Compatibility	Access your timeline remotely for more flexible work options and hours
