WHAT'S NEW

reCAPTCHA verification added to OnePass

As part of our ongoing efforts to protect customer information and enhance security, Thomson Reuters implemented some changes in the OnePass system. In mid-December, reCAPTCHA verification was added to OnePass.

At launch, users may see reCAPTCHA from the following pages and scenarios:

- Create new profile
- Manage OnePass or update profile pages after two failed sign on attempts (incorrect username or password)
- Sign on pages after two failed attempts (incorrect username or password)
- Forgot username and/or password pages

The following image displays what users will see when prompted for reCAPTCHA:

We recognize this may impose a slight interruption to users; however, the OnePass reCAPTCHA implementation is based on what most users typically see when visiting other websites. These are important changes that will help better protect customer information, consumer data, and provide additional security around potential compromises.

New Case Law Printing/Downloading Options

New options are now available for printing and delivering WestlawNext Canada case law content. In particular, there is a new option to exclude the full text of the decision, therefore allowing you to deliver only those portions of the case (and related content) that you want.

This feature is available in the document delivery options for an individual case and for delivering multiple cases from a results list.

Type-Ahead cases on source pages

Previously available only from the main Search box on the WestlawNext Canada home page, the handy Type-ahead feature has now been made available on all Source pages (and other subscription-product home pages).

The screenshot shows the WestlawNext Canada CriminalSource search interface. The search box contains the text "Will". Below the search box, there are two dropdown menus. The first menu, titled "Looking for this?", lists several acts: Alberta Wills and Succession Act, British Columbia Wills Act, British Columbia Wills, Estates and Succession Act, Manitoba Wills Act, and New Brunswick Wills Act. The second menu, titled "Cases", lists several cases: Willick v. Willick (1994 CarswellSask 48), William Scott & Co. v. C.F.A.W., Local P-162 (1976 CarswellBC 518), R. v. Willis (1992 CarswellOnt 77), and R. v. Willier (2010 SCC 37). The "Cases" menu is highlighted with an orange border. The interface also includes a search bar with "SEARCH" and "ADVANCED" buttons, and a sidebar with "Primary Sources" and "CURRENT AWARENESS" sections.

As you type words into the search box, case names that contain that word will pop up in a list below the search box. To jump to any of the listed results, click its link to display that full text case.

New “eReference on ProView” tab now accessible from the WestlawNext Canada home page

This tab provides links to eReference titles on ProView, giving users quicker access to these titles from within WestlawNext Canada, to enhance the efficiency of their research.

All eReference titles on ProView are listed on this new tab. Clicking on a link will open a new window and after the user signs in to ProView, they will be taken directly to the title they clicked. Users will only be able to access those titles that are within their eReference subscription.

Further information about adding eReference Library on ProView to your subscription is available [here](#).
